#### **Demonstration Track**

In addition to the main conference presentations, the Demonstration Track will feature presentations covering a physical product or process, particularly something that would benefit a wide-range of operators. **Please note that the purpose of these presentations is NOT to give a direct sales pitch for a specific product.** Rather, these sessions are meant to provide a more interactive, hands-on, informal session to describe a generic piece of equipment that your company happens to provide.

This track will be held within the exhibit hall in a dedicated space. A large TV (approx. 65"), laptop, and microphone will be provided for presentation material. Approximately 30 minutes would be available if your presentation is selected. Please respond to this Call for Abstracts and indicate your submission is for a Demonstration Track.

#### **Selection Process**

All abstracts will be reviewed and selected on: Originality, Technical Content, and Quality.

**Selection Process:**
