

RMSO 2020: Strengthening the Framework

By Susan Mukai
Hawaii Section Secretary

This year's Regional Meeting of Section Officers (RMSO) was held on October 20 and was held for both Regions 3 and 4. The Hawaii Section is part of Region 4, and the combined RMSO this year was a great opportunity for the leaders of these two regions to meet and exchange ideas.

Nancy Sullivan and AWWA's President **Melissa Elliott** kicked off the meeting by focusing the discussion on how Sections can successfully collaborate with other organizations. Some of the major considerations Sections should evaluate before agreeing to collaborate include the needs of the organizations, alignment between the organizations, available resources, expectations, and tax implications.

Some of the advantages of collaboration are:

- Increased market penetration
- Increased resources
- Reduced financial burden and risk
- Increase revenue
- Complementary organizational strengths

Alternatively, some of the disadvantages could be:

- Incompatible missions
- Violations of fiduciary duty
- Reduced brand visibility
- Reduced revenue and increased risk
- Incompatible viewpoints on operational programming and business strategies

The RMSO also emphasized diversity and inclusion at the Association and Section levels and is one of the Core Principles of AWWA's 2025 Strategic Plan. The AWWA's Core Principles for 2020-2025 are to:

- Protect public health
- Safeguard the environment
- Strengthen public trust
- Advance diversity and inclusion
- Share best practices
- Inspire innovation
- Advance access to safe water globally

AWWA's Diversity and Member Inclusion Committee (DMIC) leads the Association in advancing a more diverse and inclusive organization that values individual differences, creating a collaborative and welcoming culture throughout the AWWA community. Some of the DMIC's current priorities include improving diversity across AWWA, engaging Young Professionals (YPs), creating relationships with historically black colleges and universities and Hispanic-serving institutions.

One of the major components of RMSOs is the Section sharing, where leaders from various Sections are able to share ideas. A topic that the Section sharing focused on was "how does your section incorporate diversity and inclusion into events, activities, and other committee work?" Some ideas discussed in the breakout rooms included publishing articles related to diversity and inclusion in the Section newsletter and working with the Department of Health and rural water organizations to reach other people who don't normally gravitate towards AWWA. It also helps to consider diversity and inclusion when filling in volunteer roles. As an example of this, the Pacific Northwest Section's nominating committee has historically been made up of past chairs, and they are now opening the committee up to all members.

Additional discussion focused on how COVID-19 has affected the Sections. Some fun activities that other Sections have been doing to maintain member engagement include Jeopardy, virtual wine tasting fundraisers, and golf tournaments. These are great ideas that our Section can consider in our efforts to keep our members engaged. Overall, the RMSO was held virtually and seamlessly, and we are looking forward to hopefully meeting in person next year. §

2021 Pacific Water Conference Updates

By *Jessica Agsalda*
Conference Trustee

The eighth annual Pacific Water Conference will be held virtually on February 2-4, 2021 and hosted by the American Water Works Association-Hawaii Section and the Hawaii Water Environment Association.

This year's conference theme is *Go With the Flow...The Importance of Flexibility, Adaptation, and Resilience During Uncertain Times*. We have experienced many drastic changes due to COVID-19 restrictions and are saddened that in-person events will not be included at the conference this year. However, we are still committed to continuing the tradition of bringing together the water community by different means.

Registration is now open. We encourage all of our members to take advantage of the reduced registration rates this year: just \$45 for members and \$95 for non-members.

The technical schedule is also available. The conference will feature multiple technical tracks including a water operator training and a young professional track. As usual, conference attendees will be able to collect continuing education credits (CEUs) while attending the conference virtually.

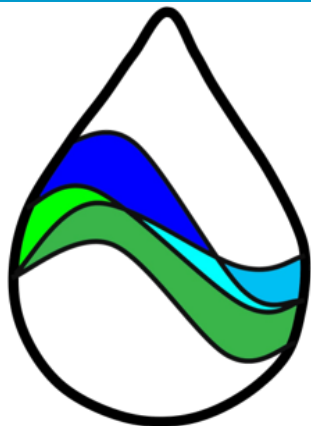

Visit our conference website (<http://pacificwaterconference.com/>) for the latest technical schedule, information on registration, and information on how to become a sponsor or exhibitor. Mahalo for your continued support.

Let's Go with the Flow... We hope you will join us at the conference!

Chair's Message

*By Clifford Lum
Hawaii Section Chair*

Hey, members — we're nearing the end of a year unlike any we've experienced. The pandemic has affected all of us, our families, and the respective entities we work for. It's given rise to terminology previously outside our every day

vocabulary: masking; social distancing; N95; community spread; drive-thru testing; contact tracing; and super spreader to name a few.

Doom and gloom may be prevalent in the media, but let's choose to rally and approach 2021 with positive intent. In this season of giving and gratitude, here are some positives for the new year:

We're working – Most, if not all of us in the water industry, have been fortunate to continue working through these difficult circumstances. One less circumstance to be anxious about and a huge boost to our mental and financial well-being.

Renewed focus on hygiene – Attention to personal hygiene has never been higher. Cleanliness in the workplace and home is something we've all strived for, but now we're actually doing it. From regularly wiping down our workstations to washing our hands more often – and doing a better job of it. Everybody sing along: "Tops and bottoms, tops and bottoms, in between, in between..."

Highlight on water utilities – emphasis on hygiene places the spotlight on water delivery. The infrastructure that delivers safe potable water to our communities is paramount to sanitation. More importantly, our gratitude goes out to the dedicated men and women tasked with

Director's Message

By *Juanita Reyher-Colon*
Hawaii Section Director

During these challenging times, it's easy to fixate on all the negative things in our world. However, we should try to focus on all of our positive experiences instead. By doing this, we invite more positivity into our lives, and positivity is needed now more than ever. One way to do this is to show gratitude. As we continue working remotely (or using a hybrid of in-person and remote working) and socially distancing ourselves from our friends, families, and colleagues, we can achieve positivity and gratitude by putting others first. When we do this, we start to experience a more robust, more connected, and more prosperous life in every facet of our lives. When people feel valued, they have a stronger sense of meaning and are positively impacted. Set some time aside, whether it be daily or weekly, to send a quick text, email, or call to celebrate a joyous moment or to show gratitude. Connecting positively enables us to focus conscientiously on all of the good that is happening. In return, we encourage more positive sharing of our experiences and feelings to strengthen our relationships and to adapt to new challenges.

As this is the season of giving thanks, I would like to extend my heartfelt appreciation for all of you and the great work we all do. For one, I am looking forward to the coming year and hope to see you at our virtual Pacific Water Conference on February 2nd through February 4th, 2021. Hau'oli lā ho'omaika'i, Mele Kalikimaka ame Hau'oli Makahiki Hou!! §

Hawaii Section Mission Statement

The Hawaii Section AWWA is dedicated to the promotion of public health and welfare in the provision of drinking water of unquestionable quality and sufficient quantity. The Hawaii Section AWWA must be proactive and effective in advancing the technology, science, management, and government policies relative to the stewardship of water.

Western Pacific Subsection News

By Aaron Sutton
AWWA-HIWPS Chair

Hafa Adai,

During the current restrictions due to the pandemic, the American Water Works Association, Hawaii Section, Western Pacific Subsection (AWWA-HIWPS) is planning for ways to share knowledge between our members and the islands in our territory. Our Subsection held our virtual general meeting in October in conjunction with the Advisory Council Meeting for the Water and Environmental Research Institute of the Western Pacific (WERI). The meeting was attended by participants from Guam, Commonwealth of the Northern Marianas, and the Federated States of Micronesia. AWWA-HIWPS assisted WERI with the coordination and provided presentations.

The Hawaii Section is assisting our subsection by hosting a USDA workshop via video-conferencing on December 3 and 4. The title is “Small Systems Workshop: Optimizing Performance and Accessing Funding to Improve Small Systems.” It is free and open to members and non-members.

The AWWA-HIWPS has set a goal to provide virtual training and/or technical presentations for our members every quarter. Some of the topics our Subsection is considering to offer are regulatory, operator training, and office applications. Our Subsection is always looking for ways to grow our training program, not just for operators, but also for others in our local industry. If anyone is interested in participating, would like to submit an abstract as a key-note speaker, or would like more information, please contact myself (aaron.sutton@ghd.com), or Nick Manley (nicholas.manley@hdrinc.com).

Si Yu’us Ma’ase’ §

Chair’s Message, continued from page 4

operating and maintaining the water utility systems. The work you do impacts all of us on a daily basis.

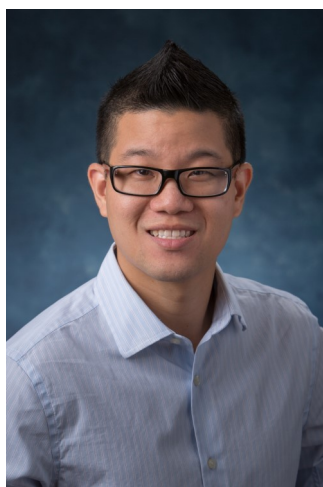

A hopeful, compassionate future – news of an impending vaccine and a scientific approach to battling the pandemic have provided optimism for a turnaround. Facing uncertain revenue streams, authorities professed their support of water utilities that have taken proactive measures to ensure continued access to clean water for drinking and handwashing during the COVID-19 pandemic. Many drinking utilities are discontinuing service cut-offs, providing payment plan options, and refraining from imposing penalties for nonpayment. EPA has recommended widespread adoption of these practices, which provide critical support for public health.

On behalf of the Hawaii Section, best wishes for a healthy, safe and fulfilling start to the new year. Hoping we are all able to get together soon. Until then, keep the water flowing! §

Young Professionals Spotlight

By Daniel Koge

Young Professionals Committee

Calvin Ing

Aloha! During these continued unprecedented times, we continue to wish the best health to you and your family. We thank you for your continued involvement with our industries and your valued efforts in keeping Hawaii moving forward.

This quarter, we're excited to showcase **Calvin Ing** from Belt Collins Hawaii as our YP Member Spotlight! He has been the YP Social Committee Chair for the past few years and coordinated practically all of our most successful, fun, and food-filled events. If you have any new and fun social ideas, let us know!

How did you get your start in the water industry?

- Calvin Ing: I switched from construction into design, and some of my first design projects involved storm water management.

What do you enjoy most about being in the industry?

- CI: I enjoy learning about new innovative products being used to help reduced storm water runoff.

What is one thing you hope to accomplish as a young professional member/officer?

- CI: I hope to meet and network with other young professionals in a fun and casual setting.

What is one experience, personal or professional, that has shaped who you are today?

- CI: As an engineer, we help shape our environment by treating and managing storm water runoff through the use of pipes, manholes, etc. but through various volunteering activities with YP, I learned working and coordination with the community could be just as effective as physical drainage structures.

What hobby or pastime have you discovered (or re-discovered) during the pivot to WFH?

- CI: Pokémon is still one of the best games ever created.

If you could learn one professional and one personal skill, what would it be and why?

- CI: Professionally, I would like to improve my public speaking. I always get nervous standing in front of people and talking. Personally, I would like to reclaim my title as Pokémon Master.

As a child, what was your dream job?

- CI: Pokémon Master.

What is your go-to karaoke song?

- CI: Pokerap

If you're a fellow Pokémon enthusiast like Calvin, be sure to connect with him and practice safe social-distanced Go-ing!

If you or someone you know is interested in getting involved with YP, please contact us at hawaiewater.yp@gmail.com to join our ohana. Although YP has indefinitely suspended all in-person activities, our officers and chairs are working hard to keep you active, engaged, aware, and excited to be a part of AWWA and WEF, so keep an eye out for future emails! Best of health and safety to you and your families, and a hui hou! §

Workshop Committee Updates: Workshops Past, Present and Future!

*By Barry Pollock and Susan Mukai
Workshops Committee Co-Chairs*

The AWWA Hawaii Section, AWWA, the U.S. Department of Agriculture (USDA), and the Partnership for Safe Water held a free workshop titled “Optimizing Performance and Accessing Funding to Improve Small Water Systems.” This highly participatory online workshop took place in two parts on September 16 and September 17, 2020 and was well attended by 35 attendees that included representatives from large and small water systems, water operators, managers, engineers, board members, and others involved with operations and management of small public water systems. The workshop covered water loss control, introduction to the Partnership for Safe Water, useful information about the USDA Loan/Grant Program for Small Community Water and Wastewater Systems, and best practices on Water Loss Control. It included a self-assessment activity for water systems to identify areas of potential improvement and an exercise on how to use AWWA Water Loss Control tools. The workshop was ably and entertainingly led by **Kyla Jacobsen**, former Utility Director for the City of Elgin Water Department and Trustee for AWWA for Distribution and Plant Operations Divisions, and was skillfully moderated by **John Donahue**, past AWWA President and current CEO at North Park Public Water District in Rockford, Illinois. Audience participation was high, and the workshop received rave reviews.

Due to the overwhelming success of this workshop, the AWWA Hawaii Section Workshop Committee and representatives from the AWWA Western Pacific Subsection requested the same workshop to be put on at a time appropriate for the Western Pacific Section water systems in the US Territories of Guam, CNMI, and the Freely Associated States of Micronesia, and AWWA graciously and generously agreed! A repeat performance of the same workshops will take place December 3 and 4, Chamorro Standard time (CST), December 2 and 3 Hawaii time. The format will be the same as the September workshop where the session are 3 hours long on each of the two days. The workshops have been awarded 0.3 CEUs each (total of 0.6 CEUs) by the Hawaii Drinking Water Operator Certification Board, and participants in CNMI will also receive CEUs. Participation will be logged, and is required to qualify for CEUs. As of this writing there are still a few slots left, and the times could work for any Hawaii water operators who may have missed the first go-round. You can register at <https://www.awwa.org/Events/AWWA-Events-Calendar/Meeting-Details/productId/86917683>

Thank you Kyla and John, AWWA, USDA, and the Partnership for Safe Water for these great workshops!

The AWWA Hawaii Section Workshop Committee is planning to host additional workshops sponsored by AWWA and USDA in 2021, including one on Financial Management and one on Cybersecurity. Dates and times have not yet been finalized, but we anticipate one in the first quarter and one in the second quarter. Stay tuned for information on the dates, presenters, and agendas for these upcoming workshops! As always, the Workshop Committee welcomes suggestions from members who have requests or ideas for technical, financial, or managerial topics they would like to see covered in additional workshops. Please email hiawwa@gmail.com with your suggestions! §

Student and Operator Scholarship Opportunities

By Jeffrey Pearson
Scholarship Committee Co-Chair

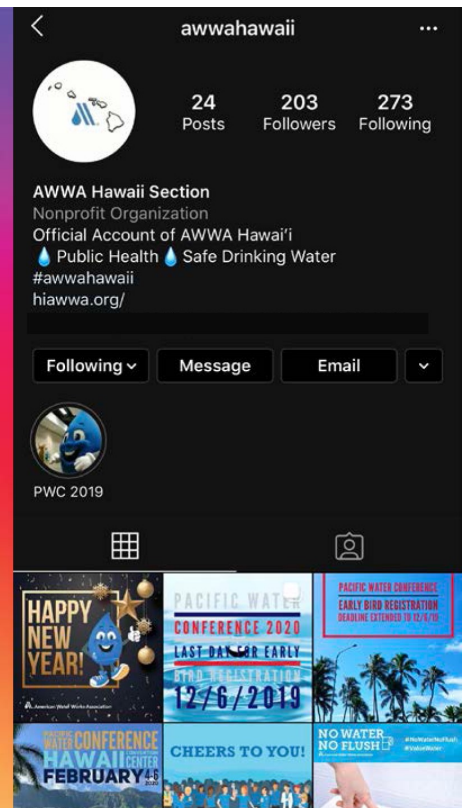

With the virtual Pacific Water Conference coming up on February 2-4, 2021, it is time to remind all AWWA members with children in college or planning on attending college in Fall 2021 about the AWWA Scholarship available to current AWWA members in good standing. Please refer to the information sheet and application form on pages 11 and 12. The winners will receive up to a \$3,000 scholarship for the upcoming 2021 school year. Submit your applications before the deadline of January 4, 2021.

In addition, the AWWA Hawaii Section will again be offering two \$1,000 scholarships for The One AWWA Operator Scholarship. Please see the information sheet and the application form on pages 13 and 14 for more information. Please direct any questions by email to: jeff.pearson@co.maui.hi.us.

Good luck to operators and college students, and see you at the virtual Pacific Water Conference where we announce the winners. §

Follow the section on IG
@awwahawaii
#AWWAHawaii

PURPOSE

To provide financial assistance to AWWA Hawaii Section members and their dependents in their quest for higher education, and to encourage academic and social excellence.

ELIGIBILITY

- Any current dues-paying “Member” of the AWWA Hawaii Section* or “Dependent” (person claimed as a dependent on most recent income tax return) of a current dues-paying member of the AWWA Hawaii Section* is eligible.
- Applicant must be a senior in high school and working toward full-time enrollment at an accredited college or university or a full-time student enrolled in courses leading to a Bachelor or Graduate degree at an accredited college or university.
- Financial need is not a criterion.
- Engineering major is not a criterion.
- Previous scholarship recipients in 2018 through 2020 are not eligible.
- Previous two-time AWWA Hawaii Section scholarship recipients are not eligible.

* Must be a current member of AWWA Hawaii Section for a minimum of 3 months as of the date of the application deadline (specifically, member since October 4, 2020) to be eligible.

APPLICATION SUBMITTAL REQUIREMENTS

1. Completed AWWA Hawaii Section 2021 Scholarship Application form.
2. Official school transcript of education (typically bears school’s embossed seal). Photocopies of transcripts, self-printed progress reports (example: campus reports, degree audit reports, etc. printed off of the internet) are **not** acceptable.
3. Brief essay relevant to scholarship application (maximum two pages double-spaced text).

SELECTION

Consideration will be given to applicants who are dedicated to their studies, have set goals for themselves, and have developed a desire for post-high school education.

AWARD

- A maximum of two \$3,000 scholarships will be awarded for 2021.
- The Scholarship Committee’s decision will be announced at the virtual 2021 Pacific Water Conference (Joint AWWA Hawaii Section | Hawaii Water Environment Association Annual Conference) on Wednesday, February 3, 2021, during the virtual conference.
- Scholarship recipients and/or parent-member(s) of scholarship recipients and their spouse(s) will be invited to attend the Conference Awards Luncheon.
- Awards will be available for Fall 2021 and will be presented to the recipient upon proof of college/university registration.

APPLICATION DEADLINE

All applications must be received by Monday, January 4, 2021. Please submit application to:

AWWA Hawaii Section
Scholarship Committee – Jeffrey T. Pearson, P.E.
200 High Street; Wailuku, HI 96793 (email: jeff.pearson@co.maui.hi.us)

2021 Scholarship Application

1. Applicant Name: _____ Social Security No. (last 4 digits): _____

2. Contact Information

	Home Address	Mailing Address (if different)
Street No. & Name		
City, State Zip Code		
Cell Phone		
Home Phone		
Email address		

3. Application for (check one and provide requested information)

- Self ~ AWWA Membership Number: _____
 Dependent ~ of AWWA Member Name, Number & Relationship: _____

4. Current school status (check applicable box(es))

- High school Senior
 College/University Freshman Sophomore Junior Senior Graduate
 Other (please describe): _____
 Full Time? Yes No

5. College/University Information for which this scholarship will be used

Name and location of College/University	
Date of entry into College/University	
Curriculum/Major/Course:	

6. Other College/Universities attended

Name of College/University	Full time	Part time
	<input type="checkbox"/>	<input type="checkbox"/>
	<input type="checkbox"/>	<input type="checkbox"/>

7. List three references (other than relatives)

Name	Phone No.	Relation to Applicant (e.g., Supervisor, etc.)

8. Please attach your **official** school transcript of grades for your two (2) most recent school years. (Unofficial transcripts, such as self-printed progress or audit reports, are not acceptable.) If the transcript shows your social security number, please redact it so only your last 4 digits are shown.

9. Please submit a brief essay covering the following (maximum 2 pages, double spaced):

- Reason for desiring a scholarship. Indicate to what expense award will be applied.
- Academic interest and vocational plans, including any plans for graduate work.
- Interests, hobbies, activities, memberships and offices held.
- Employment: Type of work, name of employer, address, full-time or part-time; values and disadvantages. As applicable, describe major work since high school graduation.
- Any other information you feel may assist the Committee in making a decision.

10. I HEREBY DECLARE that all statements on this application form and attachments are correct and complete.

One AWWA Operator Scholarship

The Water Equation
Keep Water Knowledge Flowing

American Water Works Association
Hawaii Section

The One AWWA Operator Scholarship is funded through the support of AWWA's The Water Equation Campaign and the AWWA Hawaii Section.

Purpose of Award:

AWWA's The Water Equation Campaign and the AWWA Hawaii Section will award the One AWWA Operator Scholarship in the amount of \$1,000 for Water Operator training and education.

Scholarship award can be used for certification/licensure, two-year water related associate degree, technical school program, professional training program, books and manuals, and operator related conferences.

Each scholarship recipient will receive a one-year AWWA Operator membership.

Eligibility/Guidelines:

- Applicant must be a current water operator or seeking to enter the water operator profession
- Applicant must be pursuing an Operator's License or Certification, two or four-year degree related to the water operator profession, or professional development
- Disbursement of the funds will be made directly by the Section to the financial office of recipient's college, university, or technical school
- Items related to books, manuals, conferences, professional development courses, and other eligible expenses will be reimbursed to recipient upon presentation of eligible receipts
- Applicant must reside or work within the geographical boundaries covered by the sponsoring Section
- Acceptance of scholarship constitutes permission to use recipient's name and scholarship story for purpose of promotion

Application Process:

All applications will be reviewed by the AWWA Hawaii Section Executive Committee for completeness and merit. A maximum of two applicants will be chosen for a \$1,000 scholarship.

Please send your application to:

Jeff Pearson
c/o Operator Scholarship
200 S. High Street
Wailuku, Hawaii 96793

Or email to: jeff.pearson@co.maui.hi.us

Please see the form on the following page or visit the [AWWA Hawaii Section Scholarship Page](#) to download the PDF form.

Newsletter Advertising

The Hawaii Section of the American Water Works Association (AWWA) is currently seeking advertisers for its quarterly newsletter. Advertising provides a direct message to a population of over 600 members state-wide who are in need of the products or services being advertised. Although we have switched to electronic distribution of the newsletter, we feel that there is still equal benefit to advertising in the electronic newsletter as with the printed newsletter. In addition, advertising in the electronic newsletter can be in full color.

Please be aware that advertising in the newsletter is available only to businesses related to the drinking water field. Please also note that all advertisements will be submitted for review and approval by the AWWA Hawaii Section Board of Trustees for ad content.

Item Number	Ad Size	Ad Size (w x h)	Cost Per Issue
(1)	1/8 Page	3 1/2" x 2 1/4"	\$35 (business card)
(2)	1/4 Page	3 1/2" x 4 3/4"	\$55
(3)	1/2 Page (H)	7 1/2" x 4 3/4"	\$80
(4)	1/2 Page (V)	3 1/2" x 9 3/4"	\$80
(5)	Full Page	7 1/2" x 9 3/4"	\$110

To advertise in the AWWA Hawaii Section Newsletter, simply complete the application form below.

Ads must be in a "camera ready" form, as a *.jpeg or *.tif, and must have a minimum resolution of 225 dpi – maximum resolution of 300 dpi.
